

## Geography - CHALLENGE

Imagine you are the leader of a tribe. You want to build the perfect town to live in on the top of a hill or mountain and the surrounding land.

Draw and label a picture of the perfect town for you and your tribe.

Think about:

How will you store water?

How will you generate energy?

What activities will the people in your tribe take part in?

Where will you live?

What will you eat?

Use your sorting card activity to help you! Will you need flat land or can you and your tribe complete these tasks on a hill or mountain?

## Glossary

Tribe - a group of people
