

A stylized illustration of a laptop computer. The screen is light blue and displays the text 'LO: I am learning to create a presentation using different media.' in a bold, black, sans-serif font. The laptop is dark grey with a keyboard and a trackpad visible. The background is a solid blue color.

**LO: I am learning to
create a
presentation using
different media.**

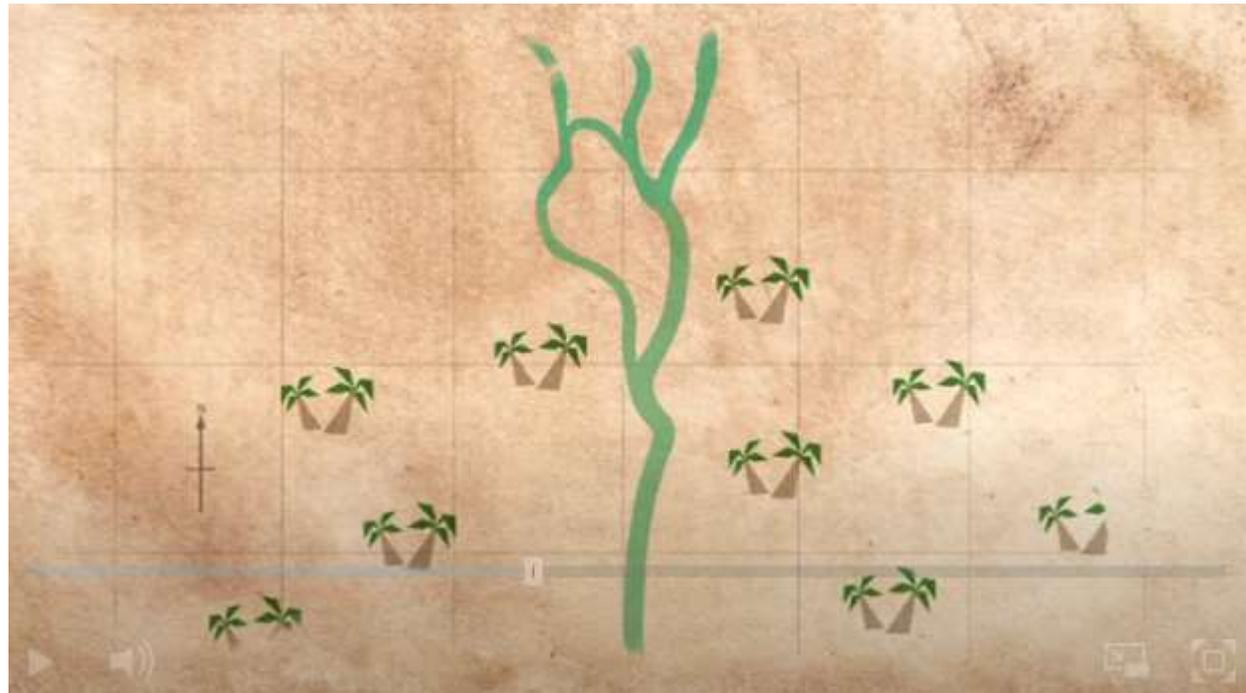

A presentation all about your learning about the Egyptians.

You'll need your history learning about the Egyptians.

Click on the link below to recap your learning about the Ancient Egyptians.

<https://www.bbc.co.uk/teach/class-clips-video/history-ks2-introducing-ancient-egypt/z6jrkmn>

Please play the video, which will explain how Google Slides work. You will be using some of these skills today.

GOOGLE SLIDES

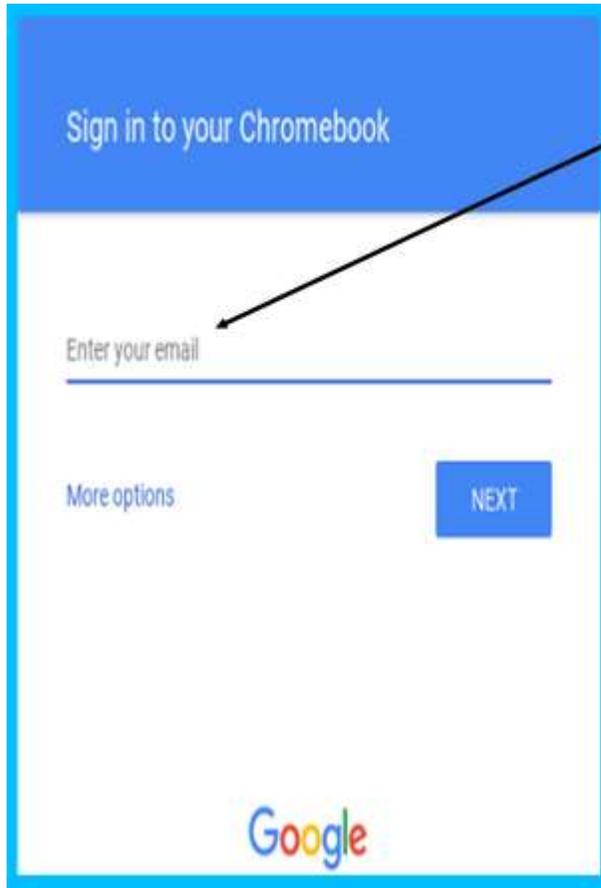

FOR KIDS

Episode 1:

GETTING STARTED

A reminder about how to log into Google

The screenshot shows the 'Sign in to your Chromebook' screen. At the top, there is a blue header with the text 'Sign in to your Chromebook'. Below the header is a white area with a text input field labeled 'Enter your email'. To the left of the input field is a link that says 'More options'. To the right is a blue button labeled 'NEXT'. At the bottom of the screen is the Google logo. A black arrow points from the 'NEXT' button to the right-hand text area.

Sign in to your Chromebook

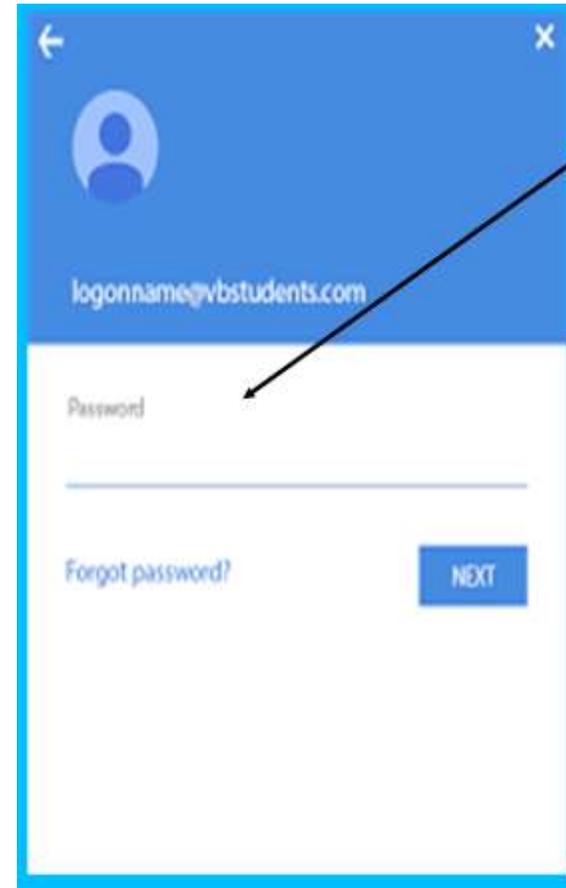

Enter your email

More options

NEXT

Google

- Press the left button where it says enter your e-mail
- Type in your e-mail address.
- Drag your mouse over the next button.
- Press the left button on your mouse.

The screenshot shows the password entry screen. At the top, there is a blue header with a back arrow, a user icon, and the text 'logonname@vbstudents.com'. Below the header is a white area with a text input field labeled 'Password'. To the left of the input field is a link that says 'Forgot password?'. To the right is a blue button labeled 'NEXT'. A black arrow points from the 'NEXT' button to the right-hand text area.

logonname@vbstudents.com

Password

Forgot password?

NEXT

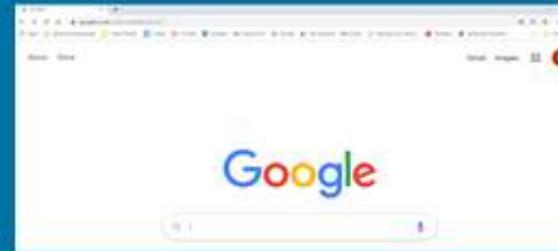

- Press the left button underneath the word password.
- Type in your password.
- Drag your mouse over the next button.
- Press the left button on your mouse.

Getting started!

How to open Google Slides.

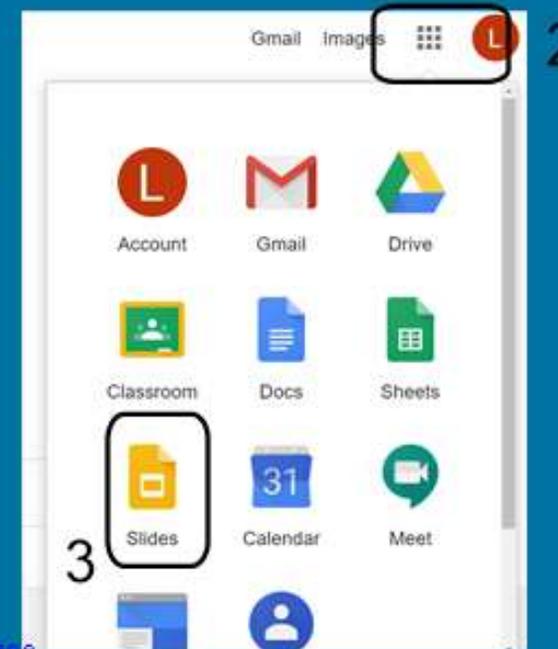

1. Make sure you're in the Google search engine

What is a search engine?

2. Click on the 9 dots

What does this show you?

3. Select slides

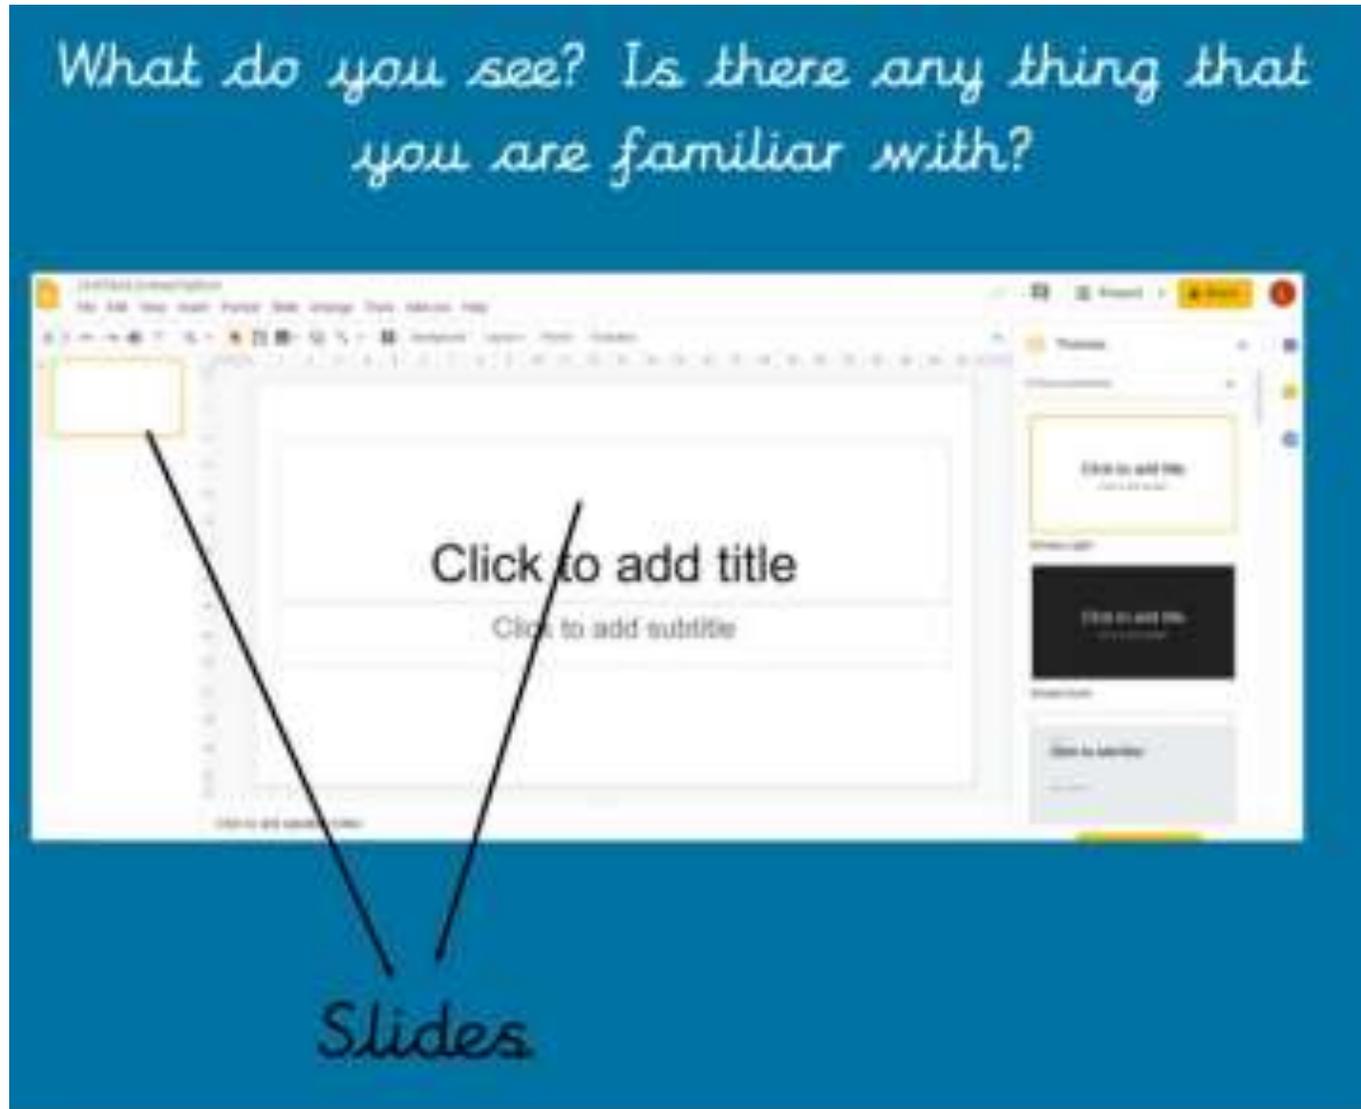

What is a presentation?

- It's not about how neat your work is!
- A presentation is when you share your ideas in front of a group of people.
- Google Slides and PowerPoint are popular software packages which help people to share ideas by writing them on "slides" and including pictures and diagrams.
- In many ways this is a presentation because I'm sharing my ideas about how to use Google Slides!

Select the blank **presentation**. A presentation will be a number of slides with information on them.

Take a look at the page, there should be a few things you recognise. What are these?

Why are they called slides?

It's an old fashioned word – a long time ago you could show pictures on a screen. They often got put in upside down!

A slide refers to a single page developed using a presentation program.

A theme is a template that gives you an instance look to your presentation. You may want to create your own one.

Choose a theme

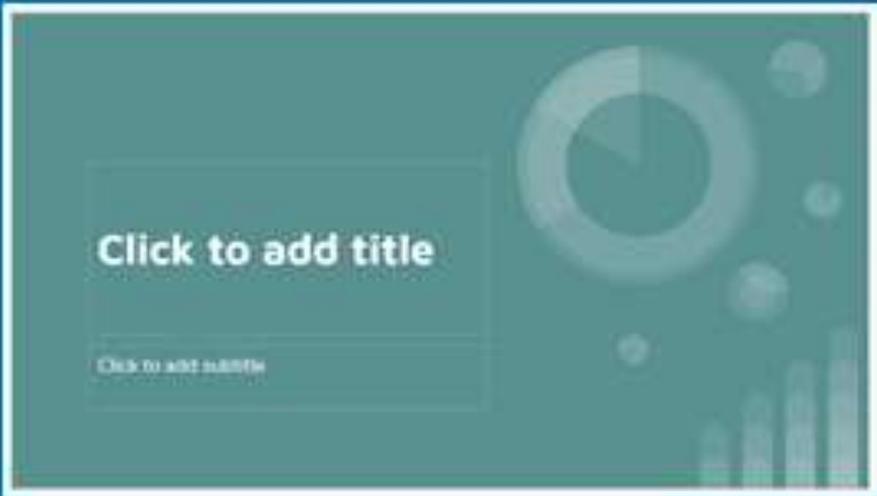

The screenshot shows a presentation software interface. The main slide area displays a title box with the text "CLICK TO ADD TITLE" and a subtitle box with the text "Click to add subtitle". The subtitle box has a light blue background. On the right side, there is a "Themes" panel with a yellow header. It lists three themes: "Swiss" (orange background), "Beach Day" (light blue background), and "Start" (dark grey background). An arrow points from the "Start" theme in the panel to the subtitle box on the slide. The software interface includes a menu bar with options like File, Edit, View, Insert, Format, Slide, Arrange, Tools, Add-ons, and Help. A toolbar with various icons is located below the menu bar. The slide thumbnail on the left shows a blue bar at the bottom.

1. Choose a theme that is appropriate for the presentation.

A theme uses a distinct style, colours and fonts to give a presentation a certain look.

What type of presentation would you expect you use these themes?

Creating a title page

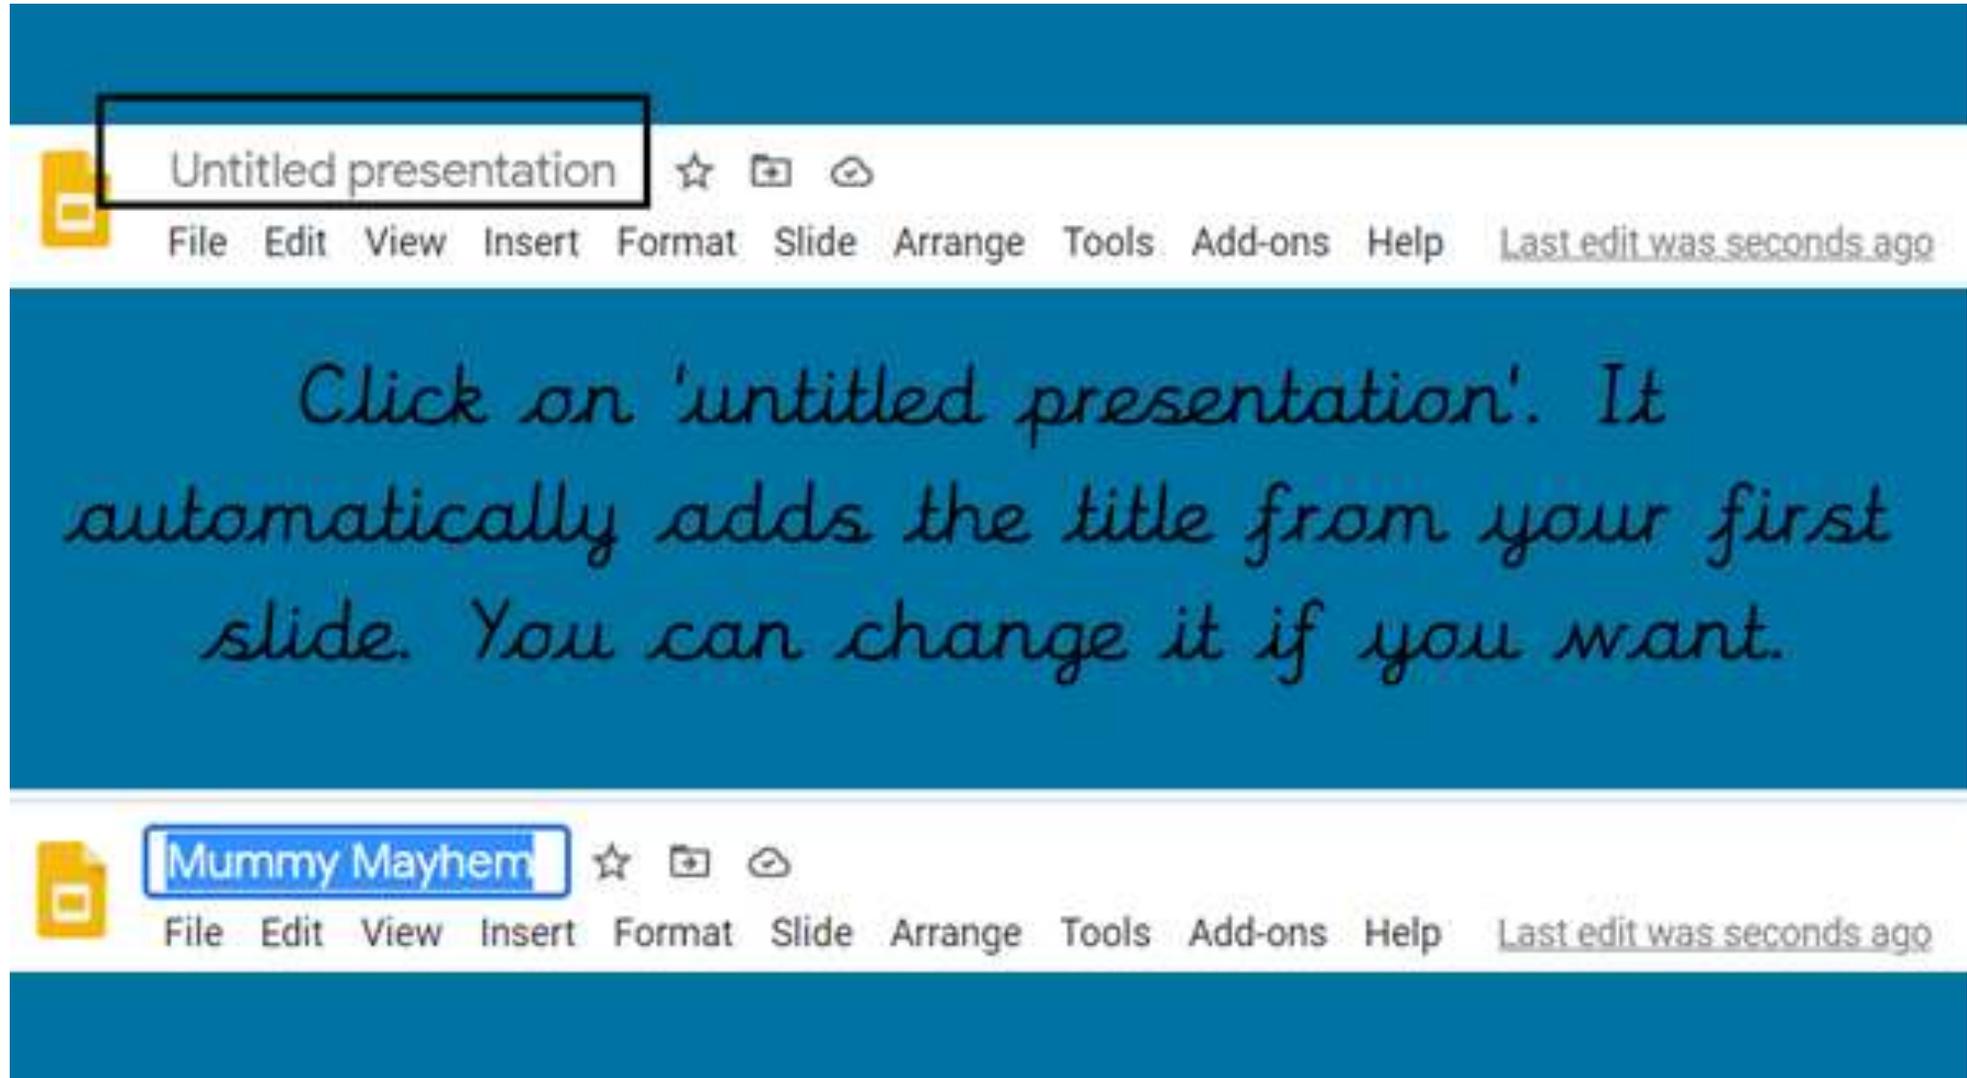

1. Give your presentation an appropriate title.

MUMMY MAYHEM

By

2. Add your name to the presentation

Name your presentation

The image shows two screenshots of the Google Slides interface. The top screenshot shows a presentation titled "Untitled presentation" with a black box highlighting the title. Below the title bar is a menu with options: File, Edit, View, Insert, Format, Slide, Arrange, Tools, Add-ons, Help, and a status indicator "Last edit was seconds ago". The bottom screenshot shows the same interface but with the title changed to "Mummy Mayhem". The main content area of the slide is blue and contains the text: "Click on 'untitled presentation'. It automatically adds the title from your first slide. You can change it if you want."

Untitled presentation ☆ 📁 ☁

File Edit View Insert Format Slide Arrange Tools Add-ons Help Last edit was seconds ago

Click on 'untitled presentation'. It automatically adds the title from your first slide. You can change it if you want.

Mummy Mayhem ☆ 📁 ☁

File Edit View Insert Format Slide Arrange Tools Add-ons Help Last edit was seconds ago

Add an image to the title page

1. Select insert
2. Select image
3. Select search web

4. Type what you are searching for.
5. Select an image and then press insert.

Re-size and reposition the image

Use the box to reposition the image.

MUMMY MAYHEM

By _____

Drag the corners to re-size

What happens when you re-size using the sides?

What happens if the image does not fit?

Dragging the sides will stretch the image

Crop the edges so when the picture is re-sized (using the corner) it fits and stays in proportion.

MUMMY MAYHEM

MUMMY MAYHEM

Where do you think the image will have the most impact?

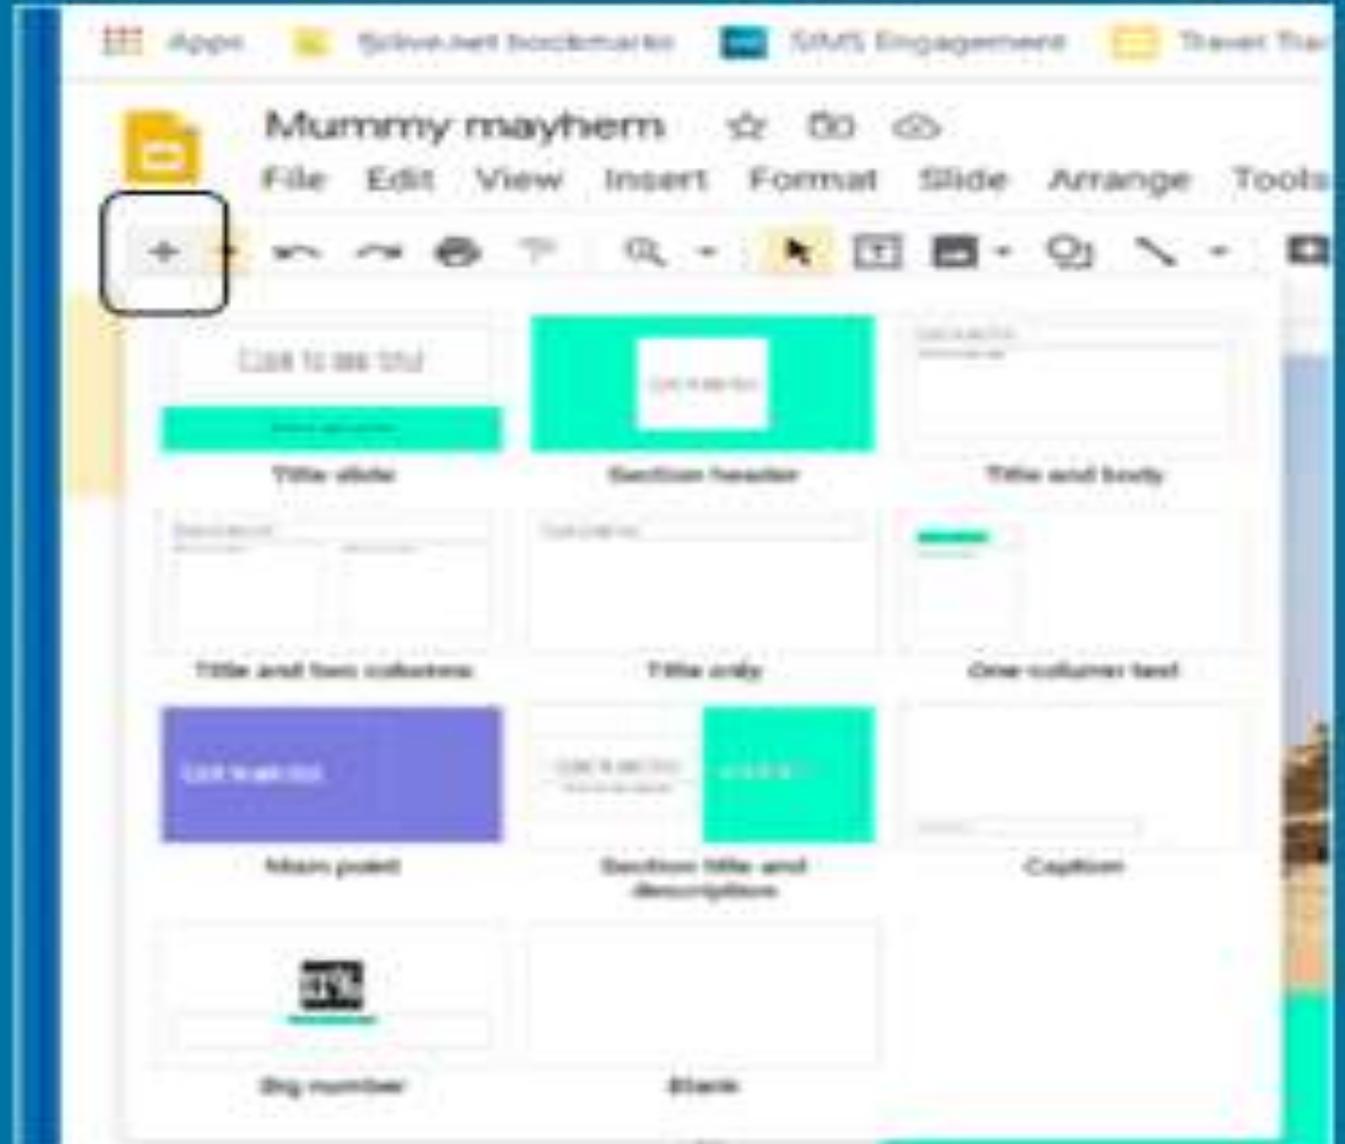

To add a new slide you select “insert” and then “new slide” at the bottom.

Or use a shortcut by pressing ctrl and m on your keyboard at the same time.

Insert a new slide
and choose a
layout

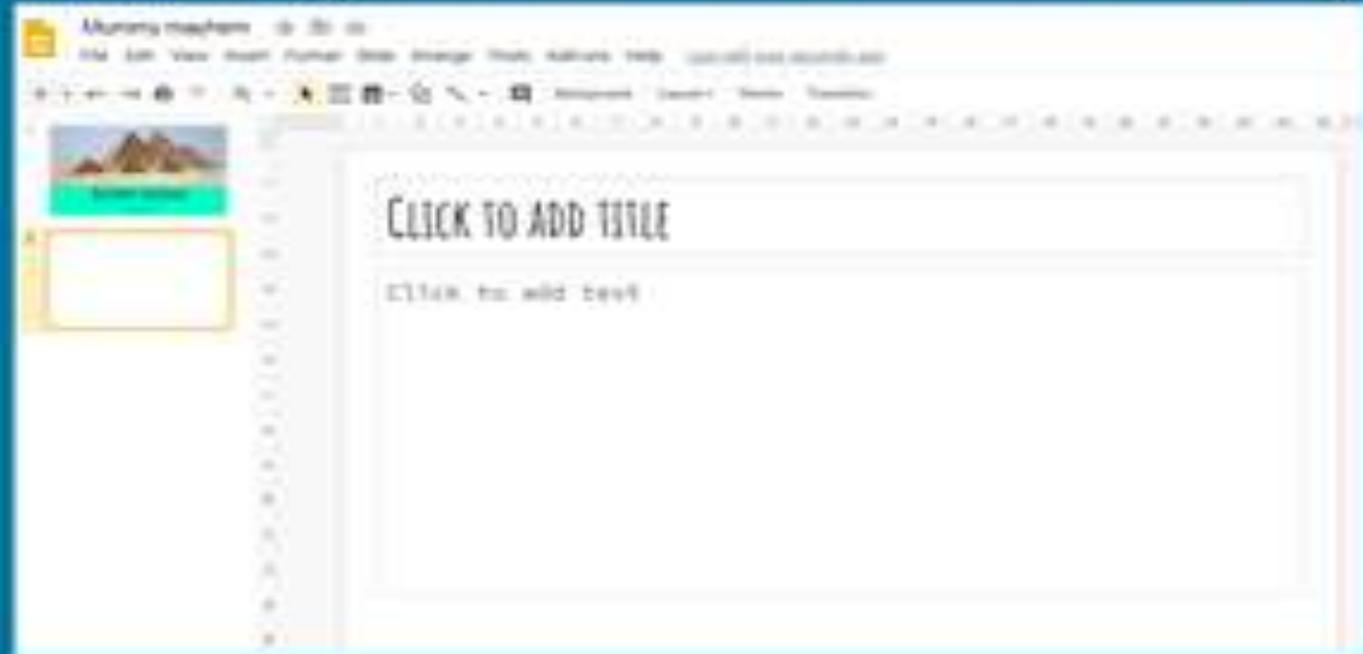

What do you think this + does?

Select a
slide
layout

What is a layout?

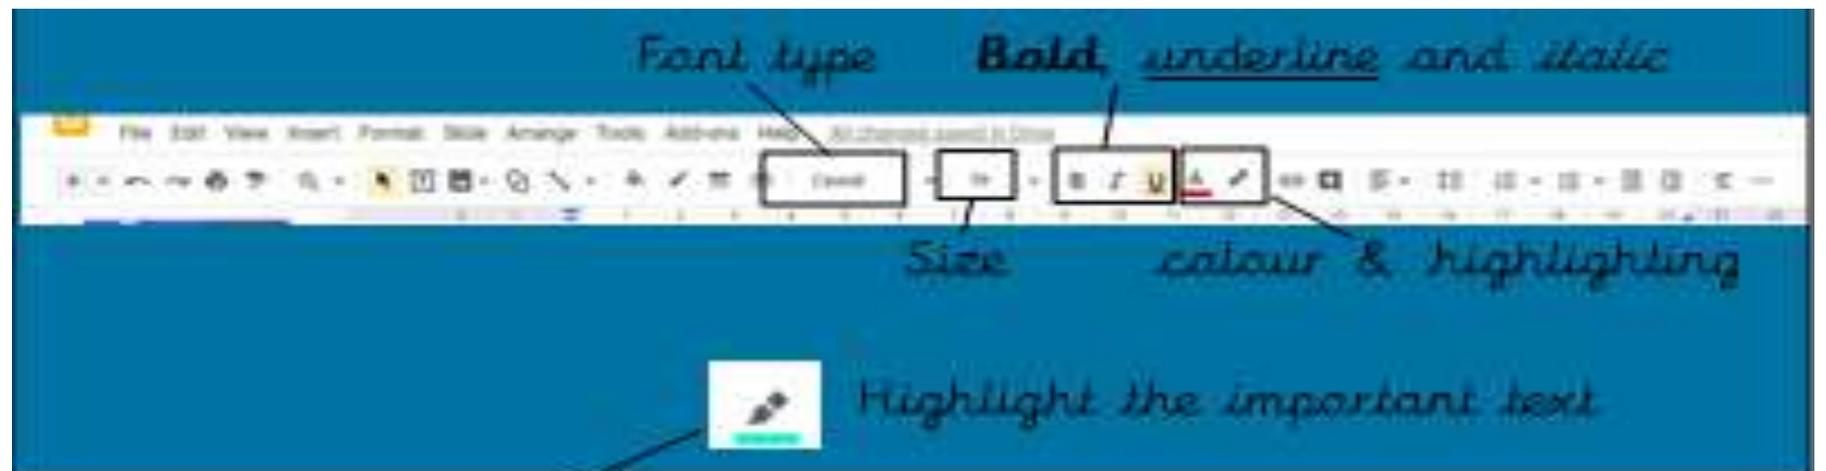

Why would you want to choose a layout?

Layouts help to quickly create a format for your slide with the look you want.

You can start with a blank slide or use a layout that has been given and adapt it to best present your ideas.

Format your text

Font type **Bold**, underline and *italic*

Size colour & highlighting

 Highlight the important text

CATS ARE SACRED

cats were considered to be a sacred animal by the Ancient Egyptians.

It's thought that most families kept a cat as a pet, which they believed would bring the household good luck!

Choose an appropriate size, colour and font type to match the purpose of your presentation.

You want to make it as easy as possible for your audience to follow what you are saying.

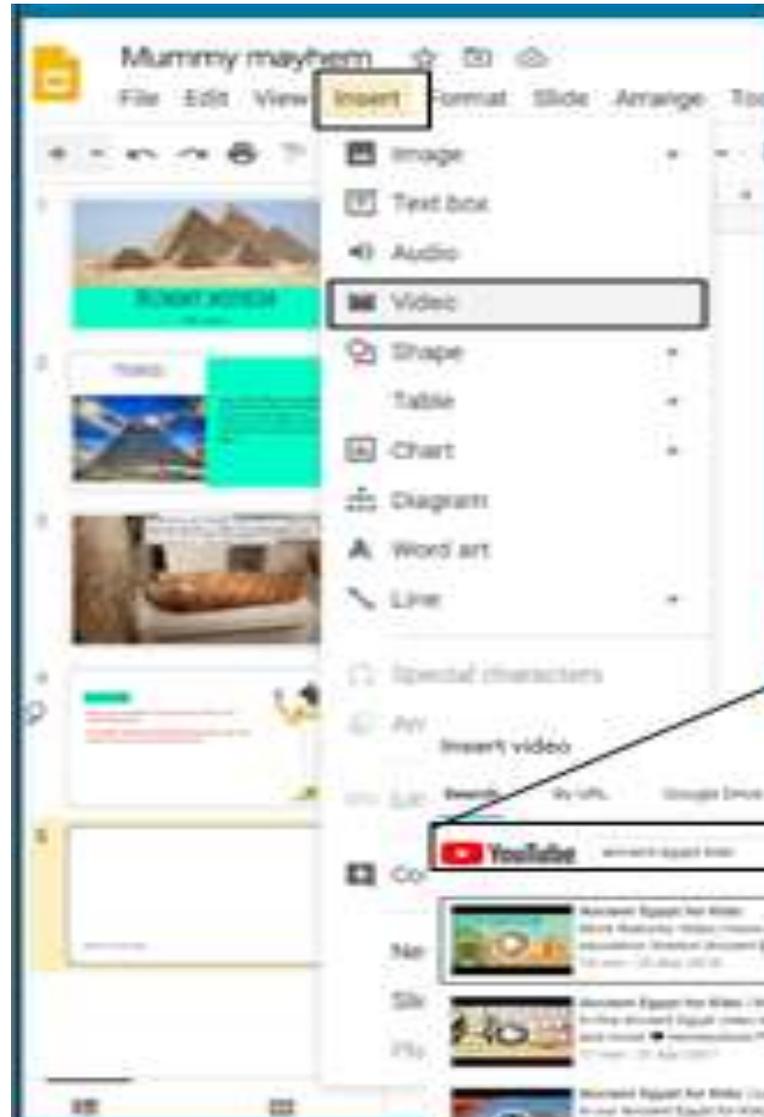

Position and
resize the
text box

*Click on the text box and move and
re-size by dragging the side or corners.*

Adding multimedia

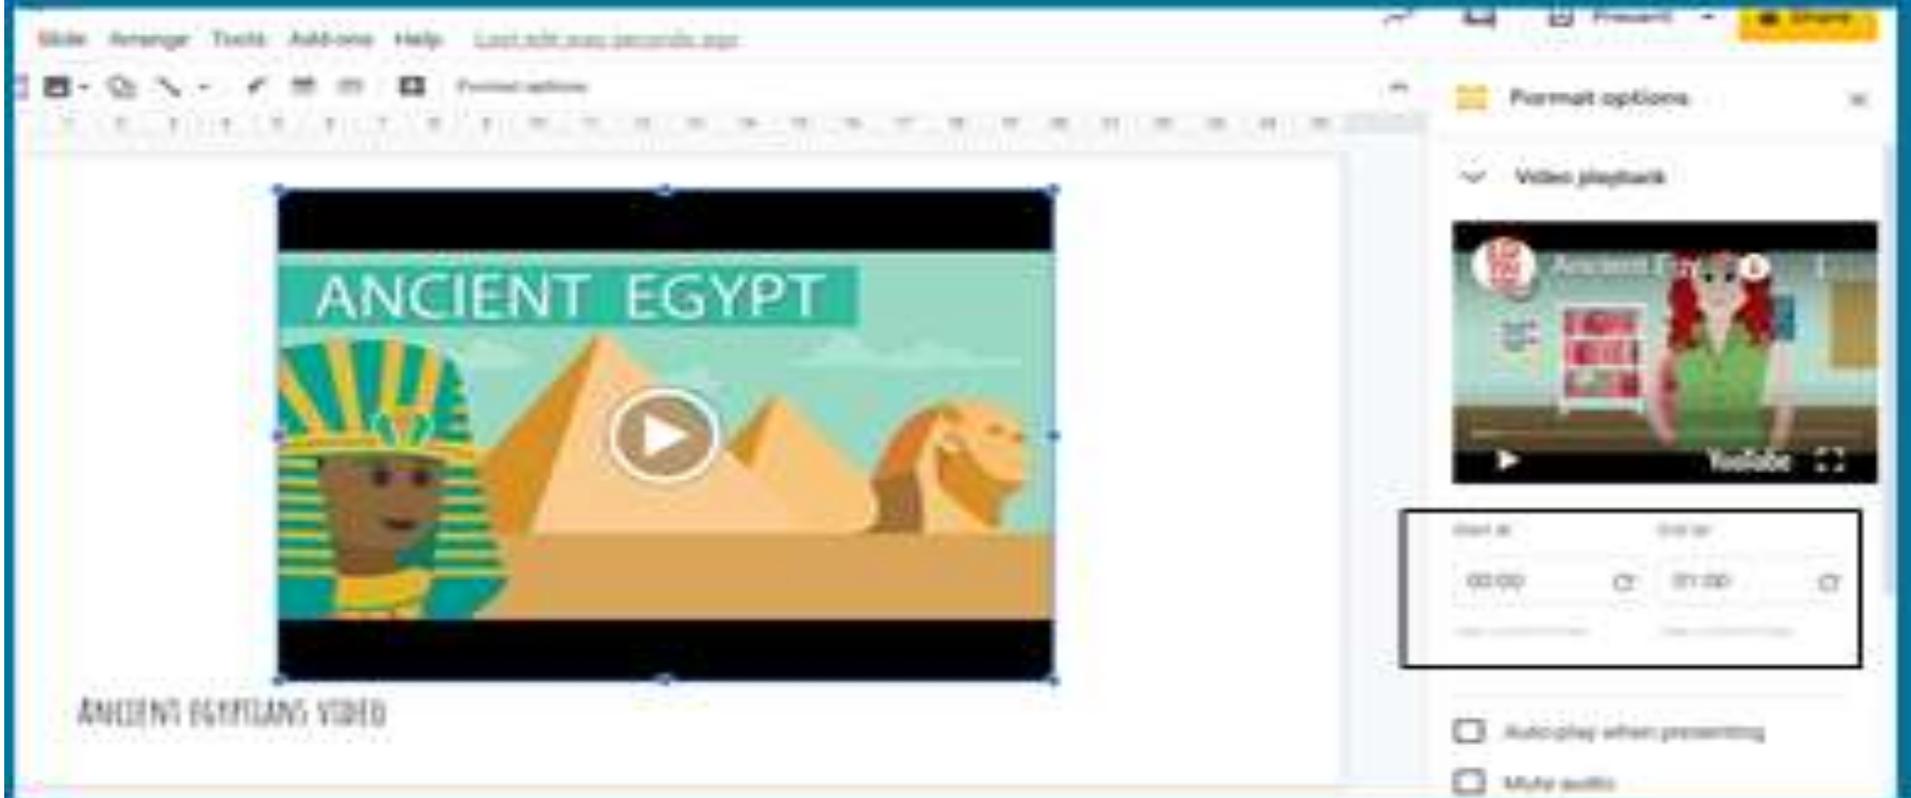

Find and insert a relevant video to enhance your presentation

Why should you use "kids" after your search?

Editing multimedia

Using multimedia resources, including video and images, helps keep the attention of the audience making your presentation more impactful.

The screenshot shows a presentation software interface. The main area displays a video player with a play button in the center. The video content features the text "ANCIENT EGYPT" at the top, a sphinx on the left, and pyramids on the right. Below the video player, the text "ANCIENT EGYPT'S VIDEO" is visible. On the right side, there is a "Format options" panel. Under the "Video playback" section, there is a video player thumbnail and a "Duration" control. The "Duration" control shows a start time of "00:00" and an end time of "01:00". Below this, there are two checkboxes: "Auto play when presenting" and "Mute audio", both of which are currently unchecked.

Use the format option to only play 1 minute

Add a final
slide to
complete
your
presentation

Apply to all slides

The image shows a presentation software interface. At the top, there is a title bar with the text 'Mummy mayhem' and several icons. Below the title bar is a menu bar with options: File, Edit, View, Insert, Format, Slide, Arrange, Tools, Add-ons, Help. To the right of the menu bar, it says 'Last edit was 4 minutes ago'. Below the menu bar is a toolbar with various icons. A box highlights the 'Transition' button in the toolbar. The main area of the slide is blue and contains two lines of handwritten text in a cursive font. The first line says 'Select the transition you want.' and the second line says 'Top tip: use one transition rather than lots of different ones.' At the bottom of the slide, there is a white button that says 'Apply to all slides'. On the right side of the slide, there is a panel titled 'Motion' which is open to show 'Slide transition' settings. The 'Slide from right' option is selected and highlighted. Below this, there is a dropdown menu showing a list of transition options: None, Dissolve, Fade, Slide from right, Slide from left, Flip, Cube, and Gallery. The 'Slide from right' option is currently selected. A box highlights the 'Apply to all slides' button at the bottom of the slide, and a line connects it to the 'Apply' button in the transition panel.

Adding a voiceover

Go to tools and select "voice type speaker notes".

Rather than typing this feature writes what you say!

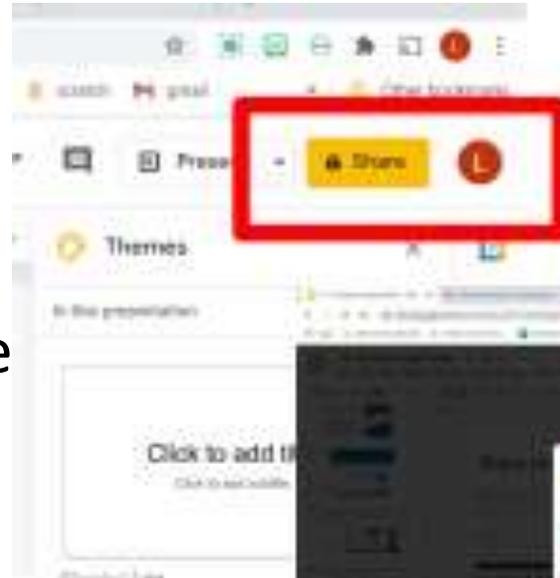

Task

To use all of your learning from today's computing lesson and create slides about Ancient Egypt.

Mr Phillips top tips:

- A few words are needed on each slide to be talked about when you are presenting your slides.
- Use pictures to help the audience to understand but not too many.
- Use a font that can be easily read.

Don't forget to share your fantastic work with your class teacher.

Select share and then search for your teacher using their name.
