

$$0 + 10 = 10$$

$$1 + 9 = 10$$

$$2 + 8 = 10$$

$$3 + 7 = 10$$

$$4 + 6 = 10$$

$$5 + 5 = 10$$

$$0 + 100 = 100$$

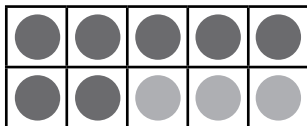

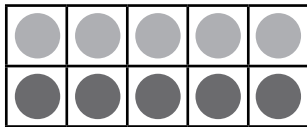

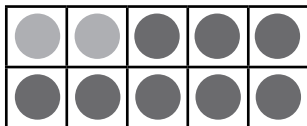

$$10 + 90 = 100$$

$$20 + 80 = 100$$

$$30 + 70 = 100$$

$$40 + 60 = 100$$

$$50 + 50 = 100$$

$$50 + 50 = 100$$

$$70 + 30 = 100$$

$$20 + 80 = 100$$

The odd one out is the base ten blocks representation which is showing $30 + 50 = 80$.

banana + ice lolly

apple + fizzy drink

pear + apple juice

crisps + water

He could also have bought 2 bags of crisps or 2 bottles of water.

Children find any combination of two items totalling 70p, 60p, 50p, 40p or 30p.
