

- James says

To convert hours to minutes, I multiply the number of hours by 60

Is he correct?
Can you explain why?

- Mark is doing a sponsored silence.
Mark says

If I am silent for five hours at 10p per minute, I will raise 50 pounds

Is he correct? Prove it.

- Five friends are running a race.
Their times are below.
Can you work out in what order they finished?

Emily: 1 minute 32 seconds

Simon: 95 seconds

Lucy: 1 minute 28 seconds

Tony: 89 seconds

Carrie: 100 seconds

What was the difference between the fastest time and the slowest time?
