

Understanding multiplication can be completed in any order

Mathematics

Miss Brinkworth

Part A

1) Match the corresponding arrays

1) If 5 people want 3 apples each, how many apples are needed?

Part B

Match related calculations and decide which you would like to answer

$3 \times 7 =$	$8 \times 5 =$	$9 \times 3 =$
$8 \times 4 =$	$7 \times 3 =$	$7 \times 10 =$
$7 \times 5 =$	$3 \times 9 =$	$5 \times 7 =$
$10 \times 7 =$	$4 \times 8 =$	$5 \times 8 =$

Challenge - if you know $2 \times 4 = 8$

$$4 \times 2 =$$

$$40 \times 2 =$$

$$8 \div 4 =$$
