

# Ancient Greek Vases

These vases came in all shapes and sizes. They showed scenes of the daily lives of the Ancient Greeks.

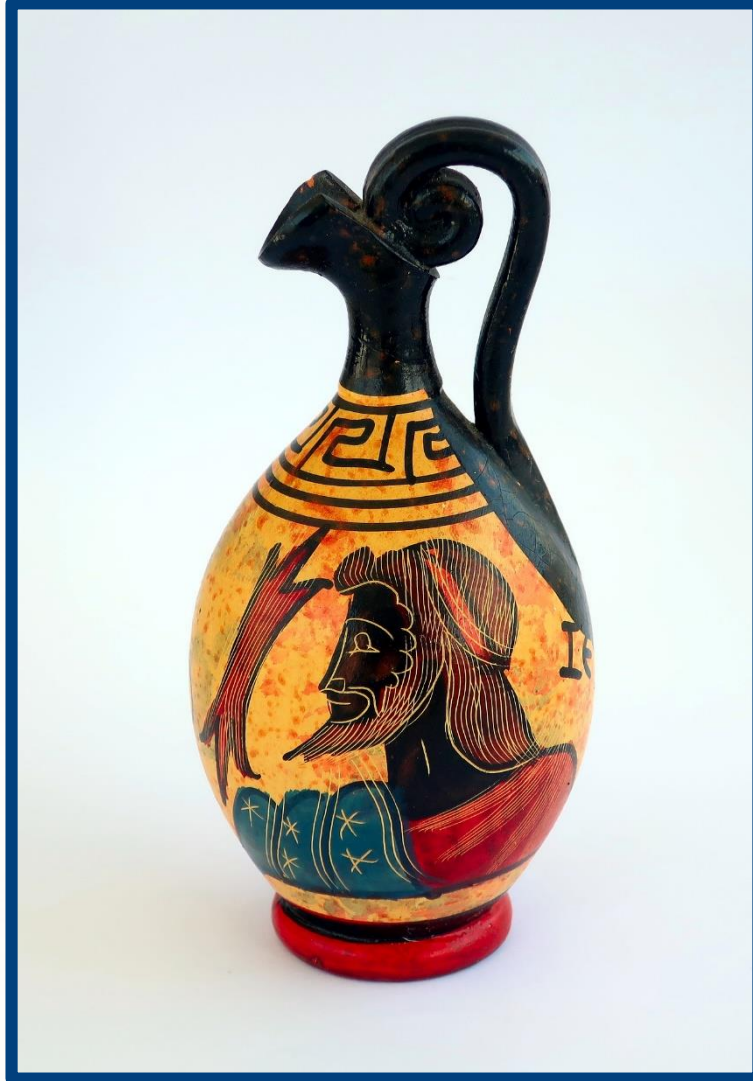

They had practical uses such as carrying water and being used for cooking.

Have a look at some examples on the next slides.

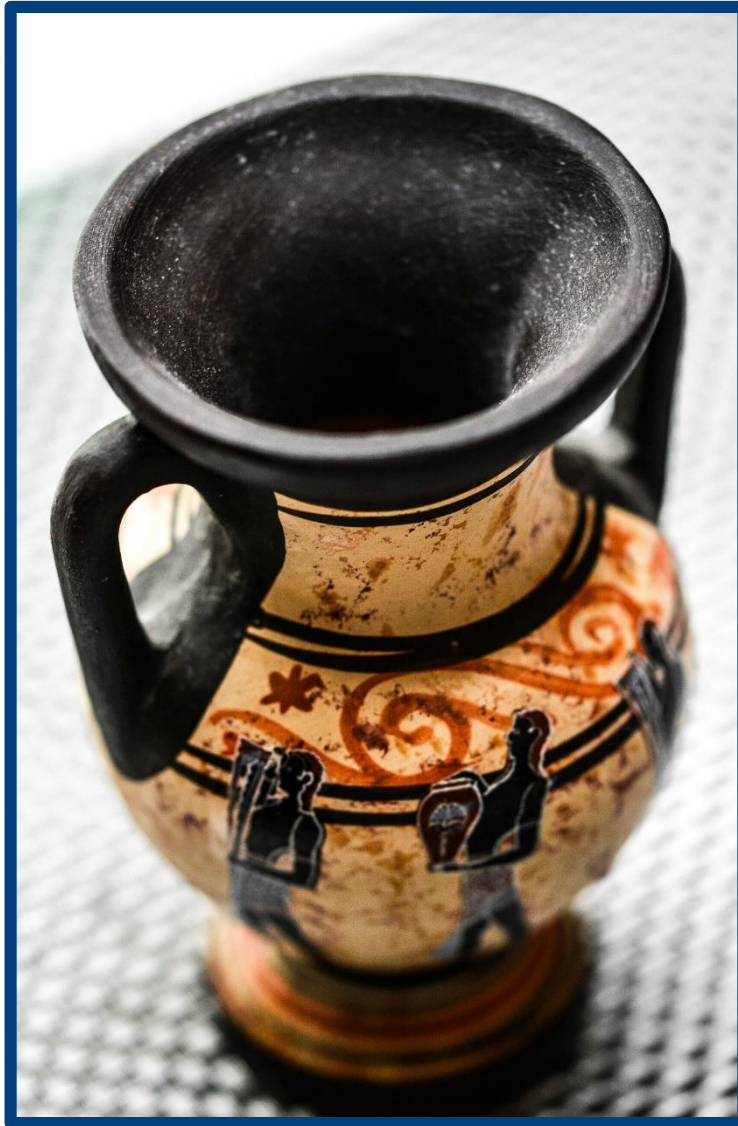

Look at the colours that were used. What do you notice?

Some of the common colours that were used are black, brown, yellow, orange, gold.

You are going to design your own vase in the style of the Ancient Greeks showing one activity that you did today!
