## ADD TWO 4-DIGIT

 NUMBERS - NO EXCHANGE
## GET READY

1) Calculate $345+142$

## 2) Increase 253 by 44

3) $5+\ldots=9$

## 1) Calculate $345+142487$

## 2) Increase 253 by 44297

3) $5+4=9$

## LET'S LEARN

## $1,731+3,052=4,783$

$358+5,231=5,589$

## YOUR TURN

## Have a go at questions 1 - 3 on the worksheet

On Monday, Dexter completes a race which is $3,123 \mathrm{~m}$ long.
On Tuesday, he races for $3,075 \mathrm{~m}$. How far are the races altogether?

6,198 m
