

L.O. I can pose questions about the past and enquire.

Your task:

You are going to use the information pack provided to research your criminal and answer the questions you generated yesterday. You will be answering the questions in full sentences. You only need to read the information sheet for the criminal you chosen in the previous session.

e.g. *'Who did John Smith commit the crime against?'*

John Smith committed his crime against Joe Blog in 1345 AD because he was trying to steal something from the marketplace.

You do not need to write the question out again.
