

Sacred Places

What is a sacred place?

Something sacred is holy, devoted to a religious ceremony, or simply worthy of awe and respect.

A sacred place is a place which is important to a religion. For example a church is a sacred place for most Christians and a mosque is a sacred place for most Muslims. Another sacred place for Muslims is Mecca.

Can you
remember
why?

What makes a place sacred?

A place is often seen as sacred if there is a religious story about it or something significant has happened there.

What makes a place sacred?

Mecca is sacred to Muslims as they believe that it is the birth place of the prophet Muhammad.

Jerusalem is a sacred place to Christians as they believe that this is where Jesus' body was placed in a tomb.

What makes a place sacred?

Religious buildings such as Mosques and Churches can also be seen as religious places as this is where Muslims and Christians can go to worship their God.

What makes a place sacred?

Sacred places are places which are special to someone.

They are important to them for a reason and will often make them feel safe and happy.

Your task is to tell us about your sacred place if you have one.

Remember this would be a holy place, linked to a religion.

If you do not have a sacred place you need to tell us about a safe and happy place that is important to you.

It is up to you how you complete this.

You can either create a presentation on Google slides or you can write a paragraph to tell us about it.

You will need to answer the questions on the following page.

Key questions to answer:

- 1) Where is your sacred/special place?
- 2) What does it look like/ what has it got in it?
- 3) Are there any interesting facts you would like us to know?
- 4) Why is it sacred/ special to you?
