

# Challenge

1) Billy used base ten blocks to calculate  $96 + 3$ .

a) Complete the calculation:  $96 + 3 = \square$

b) Write and solve the calculation shown in each representation:

$66 + 3 = \square$

$86 + 2 = \square$

$84 + 4 = \square$

2) Use place value counters or base ten blocks to calculate  $62 + 2$ .

$62 + 2 = \square$

# Challenge answers

1) a)  $96 \div 3 = 32$

b)  $66 \div 3 = 22$

$86 \div 2 = 43$

$84 \div 4 = 21$

2)  $62 \div 2 = 31$
