Work out the problem and then check your calculation.

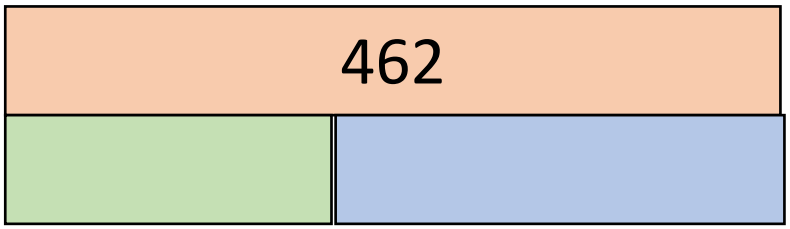

A crate contains 462 apples.

Some apples are used to make juice.

There are 187 apples left.

How many apples were used to make the juice?

_____ - _____ = _____

There were _____ apples used to make the juice.

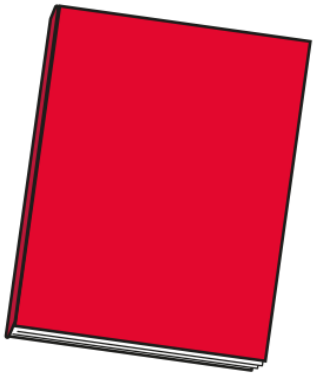

Work out the problem and then check your calculation.

Kim reads a book.

The book has 200 pages.

She reads 75 pages on Monday
and 39 pages on Tuesday.

How many pages does she have left to read?

200		
39	75	?
39 + 75 = ____		?

To work this question out, you need to find the total of 39 and 75 first.

	H	T	O
		3	9
+		7	5

Then the answer you get can be subtracted from the total amount (200) to find the number of pages she has left to read.

	H	T	O

The number of pages Kim has left to read is _____.
