3. Inference

Look at the paragraph beginning, *"They rushed towards the courtyard and saw the men all standing around..."*

What can you tell me about Thami and Nefi's characters from their actions?

I think that Thami cares about his sister and is quite brave. In the text it says, "Without breaking stride, Thami hurled the net at the group." This suggests that Thami was not afraid of the group of large men. I think Nefi is also quite fearless but this is because she is used to getting into trouble. It says that she, "lunged at the man." This shows that she is prepared to defend herself and her brother.
