-----------------	-----------------

**C**

£7 and 36 pence	£2 and 14 pence
-----------------	-----------------

**Grace**

I spent £9 and 50 pence.  
My shopping is in \_\_\_\_\_.

**Polly**

I spent more than Grace.  
My shopping is in \_\_\_\_\_.

**Finn**

I spent less than Grace.  
My shopping is in \_\_\_\_\_.

2) Find the total amount of money.

a)

	£3 and 64 pence
--	-----------------

b)

£6 and 17 pence	£8 and 94 pence
-----------------	-----------------

# Challenge

3) Chester bought a drink and a cupcake from the café.

His bill came to £4 and 94 pence.

My bill is not correct.

£2 and  
45 pence

£2 and  
75 pence

£1 and  
99 pence

Do you agree with Chester? Explain your reasons.

# Challenge answers

- 1) *Bag A = £9 and 14 pence*  
*Bag B = £9 and 60 pence*  
*Bag C = £9 and 50 pence.*  
*Grace = Bag C*  
*Polly = Bag B*  
*Finn = Bag A*

- 2) a) *£5 and 59 pence*  
b) *£15 and 11 pence*

- 3) *Chester's bill cannot be correct. If he had tea and a cupcake, the total would be £5 and 20 pence. If he had orange juice and a cupcake, the total would be £4 and 44 pence.*
