68p   [ ]   [ ]

Delilah received _____ change.

Alexandra is selling fruit smoothies.

banana: 60p   mango: £2 and 25p

strawberry: 86p   melon: £1 and 90p

a) Jonny orders a mango and strawberry smoothie. He pays with seven 50p coins. How much change does he need? What coins could Alexandra give him? Find three possibilities.

Delilah received **12p** change.

2p

10p

68p   70p   80p

1) a) *He needs 39p change.*

Accept any three differing combinations of coins to make this amount. For example:

20p, 10p, 5p, 2p and 2p

10p, 10p, 10p, 5p, 2p, and 2p

20p, 5p, 5p, 5p, 1p, 1p, 1p and 1p.
