

Circle the largest digit in each number:

a) 45,608      14,350      3,454,650      365,434,509.6

Circle the digit which is in the second smallest column:

b) 341,054      13,701      4,313.104      3,441.56

What is the value of the number in the hundredths column?

c) 230,121.43      2,307.49      456.7542      67,564.5876

How much is the digit worth in the tenths column? 576,543.32

How much is the digit worth in the thousands column? 6,473,627

How much is the digit worth in the millions column? 67,898.72

How much is the digit worth in the tens of millions column? 65,829,288

Three hundred less than 564,355 would be: \_\_\_\_\_

Which number has the largest digit in the thousandths column?

10,203.454      1,120.954      12,003.354      10,204.254

Which number has the smallest digit in the hundredths column?

6,575.64      1,234.234      839,332.32      1,123.22

Which number below has the smallest digit in the millions column?

6, 676, 302      34, 567, 666      592, 500, 423

Which number below has the largest digit in the tens column?

345,432.14      543,222.132      65      7,543.1432

Five thousand more than 56,543.99 would be: \_\_\_\_\_

Six hundred less than 8,932.43 would be: \_\_\_\_\_
