

## Friday 12<sup>th</sup> March 2021

Times tables practise (30 mins)	Today you will continue to explore the patterns you can see within times tables. You can finish off the lesson by taking a timed times tables test. This is based on the 38 times tables challenge you did a few weeks ago so if you have this app downloaded you may want to practise on that first!
English (1 hour)	Today you will be exploring complex sentences and practising using them in your own writing. Open and follow the presentation and complete each of the worksheets in the order they appear on the presentation. If you would like a challenge, follow the extension/challenge tasks in green on the presentation.
Maths (1 hour)	Today you will be dividing by 10, 100 and 1,000. Complete the warm up to get you started. Watch the video <a href="https://vimeo.com/488186549">https://vimeo.com/488186549</a> to help you and complete the worksheet and mark your answers using the answer sheet provided. If you feel confident, complete the extension and the challenge activity too.
Celebration Assembly 2:00 – 2:30	Mr Howard will send you a link this morning for celebration assembly. Please ensure that you are muted and you are respectful to all of those children who are receiving awards for their learning this week.
History (1 hour)	Today you are going to be recapping the reliability of sources. You will explore a range of different sources about Southampton in WW2 and make judgements about them whilst ensuring that your judgements are reliable and valid using what you have learnt.
