

### Multiplying and dividing by 10, 100 and 1,000

Complete the question below and explain how you know the answer is correct using the correct mathematical vocabulary.

Here are five number cards:

0.47

10

100

1000

4.07

Use **four** of the cards to complete these calculations.

$$47 \div \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

$$\boxed{\phantom{000}} \times \boxed{\phantom{000}} = 40.7$$
