

Mr Howard and Mr Woods need your help!

Sports Day will take place in the Summer Term and it is a huge event for Fairisle Junior School. We would like you to find out what fun games and sports you would like to happen.

Let's think about all the activities you have done during Sports Day

You may be able to remember your school sports days from the infant school, when there were lots of races and games.

Is there a race or game that you would like to be in?

Or

Do you have a favourite race or game?

What about the rest of your class or family, do they have a favourite race or game?

How would you decide which idea to choose?

Can you think of a way that would tell other classes what race or game is liked by **most** of your class?

Could you also think of a way to show what is **least** popular?

Another thing that you may be able to do is to **show other classes** which races or games are most liked by your class.

Your challenge!

Your task is to plan an investigation to find out which races and games your classmates would like at Sports Day. Could you email your classmates and then show your results?

If you do email, please let your teacher know so they can get your classmates to reply. Try and use what you have learnt in Maths this week to help you.
