

## **Remote Learning Timetable**

<b>Monday 15th March 2021</b>	
Maths 1hr	<b><u>LO: To make equal parts</u></b> In the lesson you will be recapping how to make equal parts using Fractions. Follow the video and complete the questions from the worksheet. <a href="https://vimeo.com/510671507">https://vimeo.com/510671507</a>
English 1hr	<b><u>L.O. I am learning to use capital letters and full stops in a factfile.</u></b> We are going to be writing a fact file on Stonehenge. We are going to be recapping our capital letters and full stops. We are going to be learning about the Aubrey Holes of Stonehenge, how they were formed and how they were named.
Reading 45 minutes	Today in Reading, we are looking at the Neanderthals and what life was like for them. To start the lesson, you are going to play bingo with some tricky words. Pick six words and have a go at reading them and draw a bingo grid. Put the set of words in a bag and get someone to pull them out and you say the word. If you have the word on your grid, you can cross it off. Learning these words will help you understand what you are reading. If you are unsure of the meaning of a word, please find out, using a dictionary or internet search.
Computing 1 hour 30 minutes	<b><u>LO: I am learning to use different formula and bar charts to analyse data</u></b> In today's lesson you will be using Google Sheets to input data and create a chart to help analyse the information.
