

Monday 22nd March 2021

Spelling (30 mins)	This week in spelling you are investigating more prefixes. Click on the link in the lesson and watch the video. Make sure you copy down your spelling words at the end of the lesson, ready to practice.
English (1 hour)	In today's lesson you will revise different punctuation, focussing on colons and semicolons. You will then look at a text and investigate how a range of punctuation has been used and the purpose of these.
Reading (30 mins)	Today you are going to be learning to infer from the text. Annotate the extract of the text about how the characters have changed. Follow the slides and download the extract from the website.
Maths (1 hour)	Today you are going to be developing your knowledge of addition and subtraction. Watch the videos https://vimeo.com/490690764 and https://vimeo.com/490691239 then complete the worksheets on the website.
Science (1 hour)	In science today you will use your knowledge of light to investigate how rainbows and shadows are made. You will then create your own shadow puppet show.
